

A. Salam Dabir
Chairman, PLSSIA

Dear members,

It gives me great joy today to announce publication of Directory enlisting all the business members of PLSSIA.

Many members, government bodies, institutes and vendors used to approach us for authentic information of members. Ours being one of the oldest MSME cluster of ancillary industries in the state, the industries were at the receiving end as prospective buyers, suppliers, and traders were not able to reach them.

We felt the need of current data base of Industries, products and services available within our own industrial area which made us to take up this project on priority.

Our team has made enormous effort for more than a year to collate information about industries from our members. You will find more than 800 entries of industries with interesting details of the products and services offered.

As everyone knows and realized that the current team of managing committee is highly committed for the cause of our members, their long drawn issues with various government bodies and corporation. We have dedicated team of members working towards our cherished goal of resolving our land issue.

My members woes are closest to my heart and I ensure each one of you whether registered with association or not, to fight with my all abilities to ensure justice .

I thank all the industry colleagues who have continually supported us during this journey, irrespective of differences in thought process, approach and prioritisation we may have, our togetherness is our victory. I also invite those watching over the fence or disillusioned for some of our shortcomings, to join for success of PLSSIA. This being my only interest, to leave behind a deeply founded - your association.

Best Regards,

S. Salam Dabir
Chairman PLSSIA
